Screw compressors EVERT 2,2 – 5,5kw

Powered by Airpress

Evert it is compressor constructed with components that have been tested for years in many industrial plans.

- a high-efficiency screw assembly
- top brand-name components
- high-tech assembling.
- Industrial compressor know-how.
- the Evert from 2,2 up to 5,5 kw compressor's reliability is the results of decades of experience in the production and treatment of compressed air.

Evert 2,2-5,5 kw comes standard with a magneto-thermal circuit-breaker main switch that protects both the machine and the power line.

All machine parts are protected against any anomaly and nothing is allowed to irreparably damage any component or the machine.

The strict observance of safety and environmental hygiene regulations during the design phase and the high degree of efficiency of our assembly lines are our guarantee.

Silenced – Given the type of user, the noise pollution produced by small-power compressors was never given the proper attention until now but with EVERT, the problem has been eliminated.

Screw Compressor

a small-power machine with big-compressor components:

- a high-efficiency screw unit for compressing air without metal parts touching,
- an efficient cooling system,
- dry air in the DRY version with dryer,
- completely automatic operation for an industrial service,
- a complete compression unit ready to use.

3 variants:

- Base mounted
- Tank mounted
- Tank mounted with dryer
